Message from our Co-Founders

It all started as a dream and here we are. It hasn't been easy embarking on this new journey but has been truly rewarding.

Our first project was focused on delivering a social development lecture and free-feeding to 50 widows and 50 orphans in Ndibinihu Obokwu Ezinihitte Mbaise Local Government Area, Imo State, Nigeria. The testimonials received were touching and heart-warming, you will have an opportunity to read some as you read further.

We are grateful for the opportunity to serve humanity and give back to the society in our own little way to make the world a better place for all. The goal is to do good for someone else no matter how small and to inspire others to join us in this journey.

I appreciate our beneficiaries, team of champions, stake holders, family, friends and all who contributed towards making this year a memorable one for Pamirian foundation.

It doesn't cost much to bring someone else happiness and if you would like to join us in spreading love and empowering less privileged individuals in African rural communities one family at a time, reach out.

Alone we can do so little and together we can do so much
– **Helen Keller.**

Thank you!

About Pamirian Foundation

Pamirian Foundation was founded during the COVID-19 pandemic through passion and dire need to reach out and empower widows and orphans in African rural communities.

Our History

Chinwe Enginna, a practicing professional Nurse in Nigeria and the UK, global health advocate and champion for women and children's wellbeing had the desire to establish a foundation as a channel to give back to her community and society but didn't know how to go about it. During the 6 months' lockdown in Nigeria as a result of the COVID-19 pandemic, she met someone; Chibuike Maduiké who shared similar values and passion. They both believed that giving widows and orphans the opportunity to take charge of their lives through empowerment will contribute to eradication of poverty, break the cycle of total dependency, empower them to live a more fulfilling life, and foster social equality.

This year, Pamirian Foundation (PAF) implemented a community intervention program which included a social development lecture and a free feeding project impacting a total of 50 widows and 50 orphans.

Our Vision & Mission

Vision

Our Vision is to create a continent where African rural communities transcend inequalities.

Our Mission

Our Mission is the eradication of poverty in African rural communities through free feeding projects, educational support, micro-loans and skill acquisition.

Our Objectives & Core Values

Objectives

To reach out and empower the less privileged in all rural communities in Africa one family at a time.

To empower widows in African rural communities through non-interest micro loan supports to scale-up their petty businesses.

To tackle poverty among orphans and widows in African rural communities through educational support and skills acquisition to enhance their marketplace.

Core Values

- Integrity
- Accountability
- Teamwork
- Professionalism
- Trust
- Generosity
- Commitment
- Excellence

Core Programme Areas.

Pamirian Foundation is all about creating a safe and a better world for vulnerable widows and orphans as such, we implement interventions in the following areas;

Micro Loan Support:

We empower widows with non-interest micro loan to enable business scale up.

Educational Support:

We provide educational support including re-enrolment and school bag packs to both out of school orphans and enrolment of those who has never been enrolled in school.

Skills Acquisition Training:

We engage adolescent orphans in vocational skills and provide start-up materials to enable them achieve economic resilience and also reduce inequalities in African rural communities.

Free Feeding Programs:

We provide free feeding programs to help address the issue of hunger in rural communities.

Target Beneficiaries

Vulnerable widows between the ages of 23years - 45years old

Our reason for the age range is because vulnerable widows within 23 years - 45 years of age are always victims of discrimination, denied right to property ownership, emotional and mental abuse, threat to life, poverty and lack of source of income. This problem and more can be very suicidal and dangerous hence the level of our intervention programs.

Vulnerable Orphans between the ages of 0 - 18years old

While orphans between the ages of 0 - 18years suffer from malnutrition and become victims of violence, peer pressure, kidnap, sexual and emotional abuse, crime, early child marriage, STDs etc.

Our levels of intervention seek to close the gap losing a loved one can create especially in situations where the victims are very vulnerable without support, hope or any legitimate means or source of survival.

Programme Implementation, 2020

Being our first project year, 2020 was the start year for us as we targeted the immediate needs of widows and orphans in the community while hoping for a larger impact in the coming years. This year, we worked in one community of interest and strived to achieve the mission and vision of the Organization through targeted based programme.

The projects and programmes implemented in the course of the year under review include:

- Free-feeding project
- Social Development Lecture

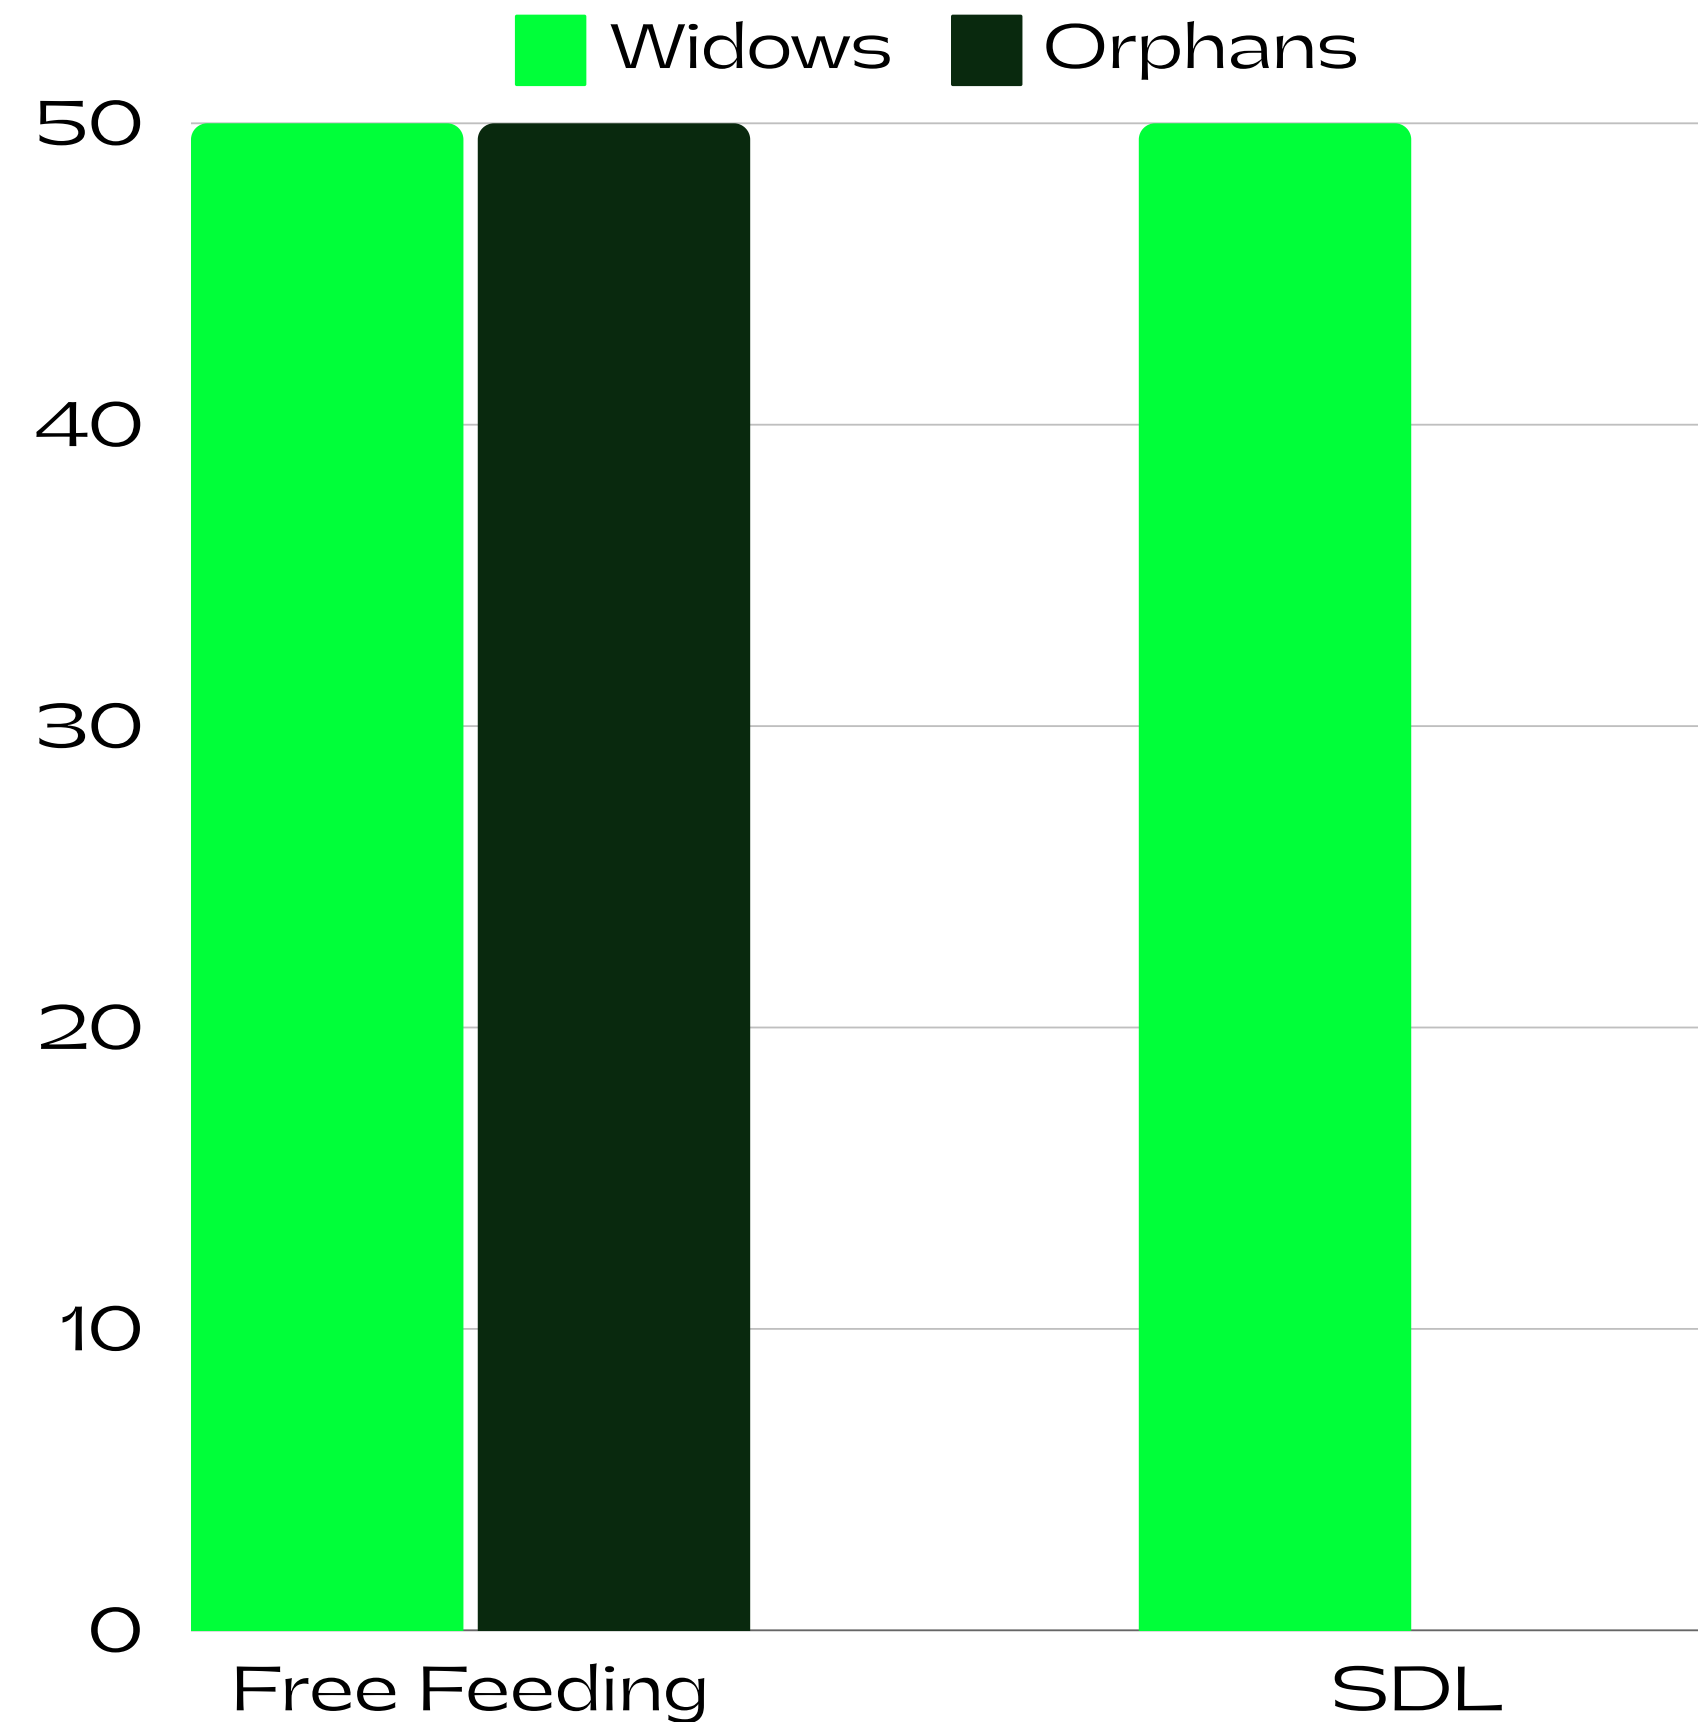

We acknowledge the donations from some passionate individuals who believed in the foundation even at its start-up, supported our course and made this vision a reality.

2020 Milestone: Free-feeding Program Gallery at Ndibinihu Obokwu Ezinihitte Mbaise Local Government Area, Imo State, Nigeria.

In 2020, we implemented a free feeding project which impacted 50 widows and 50 Orphans respectively in Ndibinihu Obokwu Ezinihitte Mbaise Local Government Area, Imo State and also organized a social development lecture which aimed at strengthening the mindset of widows for household economic strengthening activities.

Lessons Learnt

Being our first project, we didn't know where and how to start but we decided to give it a chance. We have to take the chance to go after our dreams and where there is a will, there is a way.

The following were learnings points for the Pamirian Foundation team in 2020.

Widows and orphans in rural communities go through some of the worst form of abuse psychologically, emotionally and otherwise hence targeted based interventions will help address such issues.

Having a sustainable intervention that will enhance the skills and capacity of widows and orphans will build resilience in them and contribute to national development.

Creating a widow's forum/caregiver's forum for widows will help them unwind and create opportunity for experience sharing, which will lead to emotional healing and psychological stability.

Establishing laws that advocates for the rights and protection of widows and orphans in rural communities will help address the issues of discrimination and denial of rights from family members and even the communities where they come from.

2020 Project Fund

A total of **#782,050 (Seven hundred and eighty-two thousand, fifty naira only)** an equivalent of **\$1,021,87 at the time**, was raised through **Public Private Partnership (PPP)** and used for the purpose of this project.

We are very meticulous, transparent and accountable to any funds given by donors, sponsors, partners etc. Our main aim is to contribute to the eradication of poverty in African rural communities hence, we are true to accounting for every penny received.

Thanks to our 2020 Donors!

50 widows and 50 orphans returned home full of hope and smiles because of your donations.

Testimonials

God will flourish
your intentions to
help humanity. I
cannot thank you
enough for feeding
the widows today.

Ukaefu Delite

Community Leader

I didn't have rice to
cook on Christmas day
because rice was very
expensive at the
market. But then the
rice I received from
Pamirian Foundation
made it possible for me
to cook rice for me and
my children to
celebrate with.

Mary Nwagwu

**Widow, Outreach
Beneficiary**

Join us in Empowering African Widows and Orphans!

Your support can reach one family at a time!

By partnering with us, we can ensure that these orphans and widows have all the necessary tools they need to live a healthy, strong and resilient life.

Let's invest in their future and give these families an opportunity for a brighter and better life outcome.

Your contribution can and will make a profound difference.
