# About Pamirian Foundation

Pamirian Foundation was founded during the COVID-19 pandemic through passion and dire need to reach out and empower widows and orphans in African rural communities.

# Our History

Chinwe Enyinna, a practicing professional Nurse in Nigeria and the UK, global health advocate and champion for women and children's wellbeing had the desire to establish a foundation as a channel to give back to her community and society but didn't know how to go about it. During the 6 months' lockdown in Nigeria as a result of the COVID-19 pandemic, she met someone; Chibuike Maduikwe who shared similar values and passion. They both believed that giving widows and orphans the opportunity to take charge of their lives through empowerment will contribute to eradication of poverty, break the cycle of total dependency, empower them to live a more fulfilling life, and foster social equality.

In 2022, the organization impacted 50 widows through a free feeding program, and 4 widows were given non-interest micro loans. From inception, the organization has successfully impacted over 200 widows and orphans through its initiatives.

# Our Vision & Mission

**Our Vision** is to create a continent where African rural communities transcend inequalities

**Our Mission** is the eradication of poverty in African rural communities through free feeding projects, educational support, micro-loans and skill acquisition.

# Our Objectives

To reach out and empower the less privileged in all rural communities in Africa one family at a time.

To empower widows in African rural communities through non-interest micro loan supports to scale-up their petty businesses.

To tackle poverty among orphans and widows in African rural communities through educational support and skills acquisition to enhance their marketplace.

# Our Core Values

As an organization, we are also driven by our core values which support the vision, shape our culture, and help empower personal growth across the organization. Our core values include the following;

- Trust
- Integrity
- Teamwork
- Excellence
- Generosity
- Commitment
- Accountability
- Professionalism

# Core Thematic Areas

## Micro Loan Support:

We empower widows with non-interest micro loan to enable business scale up.

## Educational Support:

We provide educational support including re-enrolment and school bag packs to both out of school orphans and enrolment of those who has never been enrolled in school.

## Skills Acquisition Training:

We engage adolescent orphans in vocational skills and provide start-up materials to enable them achieve economic resilience and also reduce inequalities in African rural communities.

## Free Feeding Programs:

We provide free feeding programs to help address the issue of hunger in rural communities.

# Target Beneficiaries

Vulnerable widows between the ages of 23years – 45years old

Our reason for the age range is because vulnerable widows within 23 years – 45 years of age are always victims of discrimination, denied right to property ownership, emotional and mental abuse, threat to life, poverty and lack of source of income. This problem and more can be very suicidal and dangerous hence the level of our intervention programs.

Vulnerable Orphans between the ages of 0 – 18years old.

While orphans between the ages of 0 – 18years suffer from malnutrition and become victims of violence, peer pressure, kidnap, sexual and emotional abuse, crime, early child marriage, STDs etc.

Our levels of intervention seek to close the gap losing a loved one can create especially in situations where the victims are very vulnerable without support, hope or any legitimate means or source of survival.

# Programme Implementation, 2022

2022 program year focused on empowering 4 widows with non-interest micro loan support for their business scale-up and over 50 widows with free raw food packs. We also held a social development lecture and served the widows present with free cooked food.

## The Objectives of the programme:

- Deliver a social development lecture
- Distribute free feeding packages to over 50 widows. and their households.
- Award micro loans to 4 widows to support their small businesses.

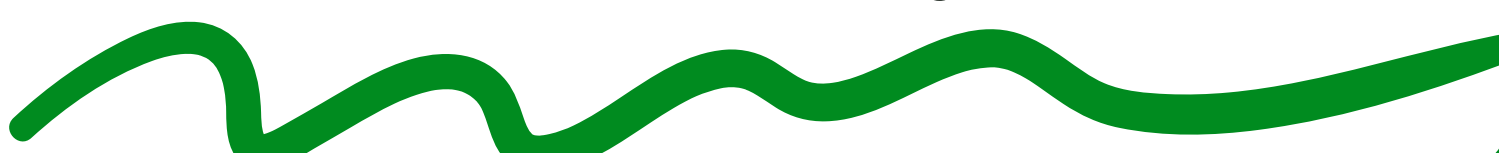

Activities conducted had the following immediate Outcomes:

## 1. Social Development Lecture

On 2nd January, 2022, a social development lecture was conducted to empower the local community. The key topics covered included:

- Economic empowerment strategies.
- Health and wellness tips.
- Community support and collaboration.

The lecture was attended by a significant number of community members, who actively participated in the discussions. The feedback was overwhelmingly positive, with many attendees expressing that the information shared was both insightful and practical for their daily lives.

## 2. Distribution of Free Feeding Packages

The Foundation provided free feeding packages to over 50 widows to support their nutritional needs and reduce hunger. Each package included: Rice, Beans, Cooking oil, tomatoes, Spices and Canned goods to support in the new year.

The distribution was organized efficiently, ensuring that all recipients received their packages in a timely manner. The widows expressed their gratitude, noting that the support would significantly ease their food-related challenges.

### 3. Awarding of Micro Loans

Four widows were selected to receive interest-free micro loans of **N50,000 (Fifty Thousand Naira Only)** aimed at helping them expand their small businesses. The selection process was based on the viability and sustainability of their business ideas, as well as their commitment to invest the loan wisely.

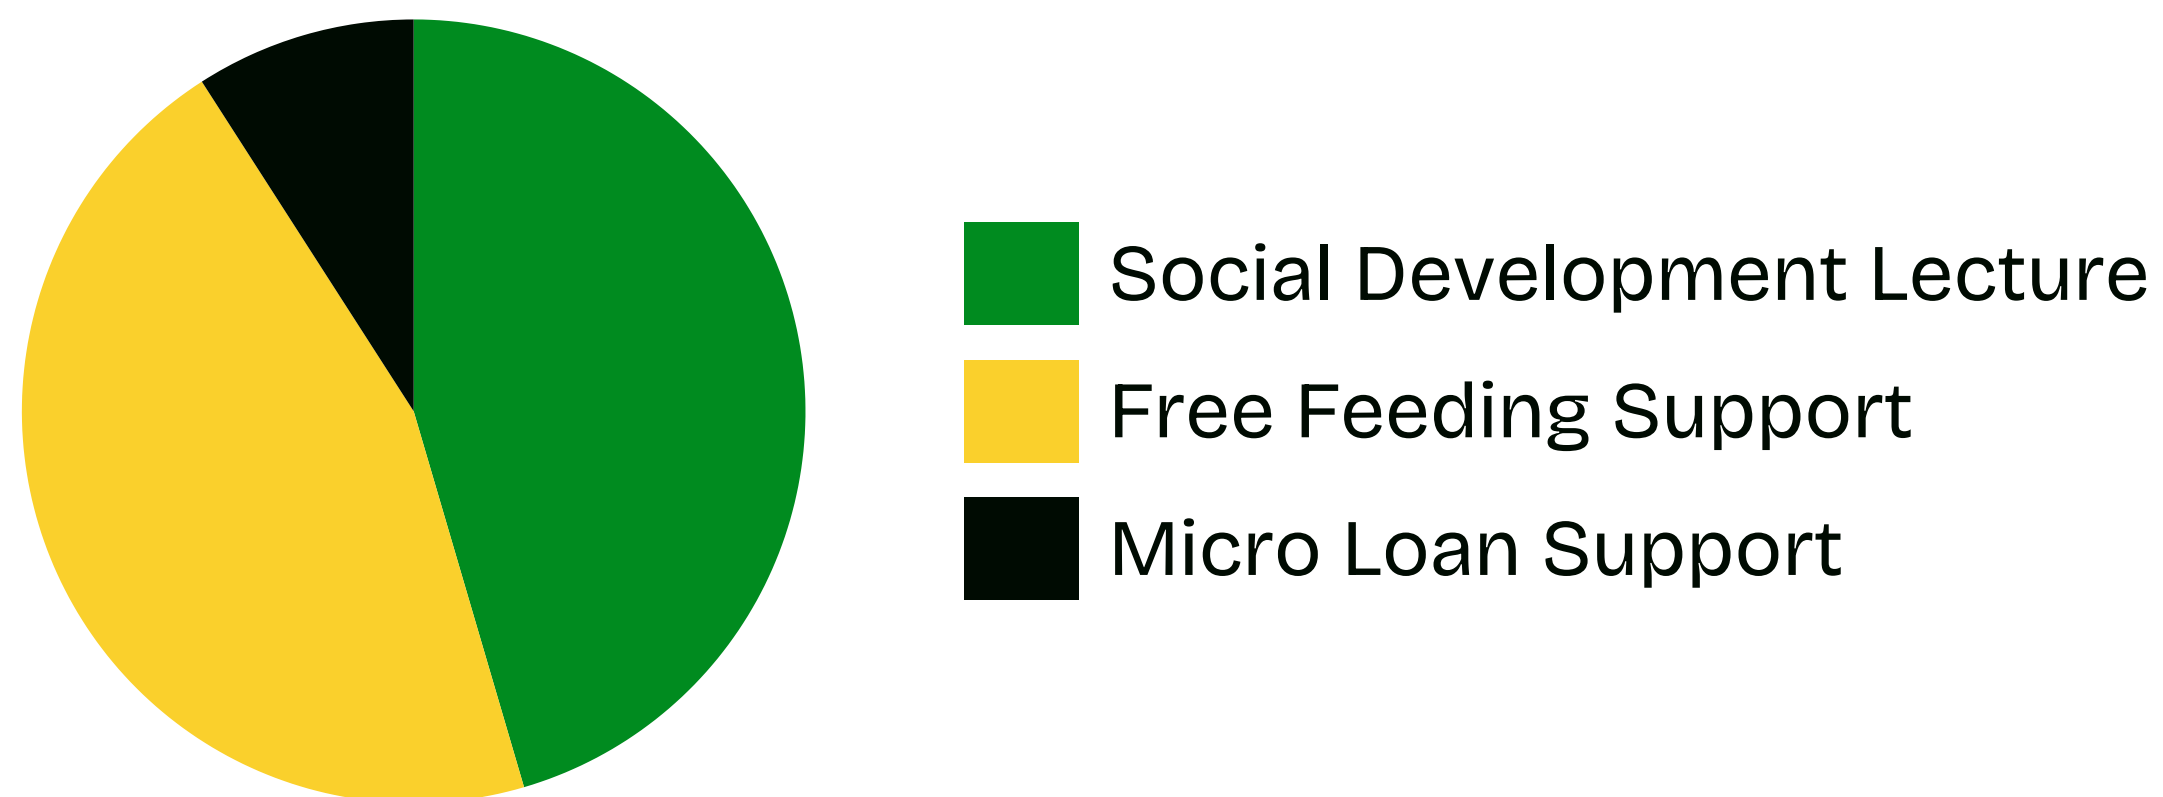

These micro loans are expected to significantly enhance the economic stability and independence of the recipients. Regular follow-ups to be conducted to monitor their progress and provide additional support as needed.

# Conclusion

The outreach in Ndibinihu Obokwu Ezinihitte Mbaise was successful, achieving its objectives of education, food support, and economic empowerment. The social development lecture provided valuable knowledge, while the feeding packages and micro loans offered practical support to the widows in the community. Pamirian Foundation is committed in continuing efforts to foster sustainable development and improve the quality of life for the residents of Ndibinihu Obokwu Ezinihitte Mbaise and across Africa.

## Project Impact Data Analysis

The data shows the total number of beneficiaries supported during the project.

# Programme Outcomes

Provision of a non-interest micro loan support to 4 widows for business scale-up.

Provision of raw food items to 50 widows and their households.

Social development lecture to 50 widows to build their capacity in entrepreneurship and skills acquisition
